**PROPERTY MANAGEMENT EXPERTS** SM

*"Property Management Is Our Only Business"*

Property Management Experts (PME) was founded in 1978 and has become one of the largest and most successful property management companies in the Central Valley. The PME staff are committed to helping investors to realize their investment goals and objectives. We pay close attention to each property, develop productive relationships with each tenant, and attempt to give prompt and courteous service to all our clients. Our success lies in offering the clients reliable and efficient property management services.

All five of these ladies have made a commitment for excellence and client service. Our staff includes fifteen women who have a strong sense of purpose in their work and as community volunteers. Karen Carlson, president of PME, has over 20 years of experience in property management and has obtained education credentials as a Residential Property Manager (RMP), Master of Property Management (MPM), and a Certified Property Manager (CPM). She is also active as a community volunteer with Stockton Junior Aid and the Miracle Mile Improvement Association Board. She previously served on the Board of Directors for Hospice of San Joaquin.

PME has a staff of highly motivated women of all ages and backgrounds. Shawn Battle, Chief Financial Officer, has been with PME for three years. Trudy Miller, General Manager, has been serving the public at PME for nineteen years. Lucretia Owens has been an Account Executive with PME for eight years while Venicia Williams has been an Account Executive with PME during this last year. These women along with the support staff have made a difference in the lives of both clients and the community at large. PME takes great pride in our staff of property management professionals and the services that they offer. Whether you have one or one hundred investment properties, PME will deliver the same efficient and courteous service.
